Fifth Ward,
THOMAS BOEHM.

It is queer that a number of Democratic newspapers are not shouting treason over President Wilson's appointment of a "Standard Oil editor" to one of the chief ambassadorial posts.

One of the unusual things brought to mind by the death of J. Pierpont Morgan is that he was born in wealth. The fact that he was so wonderfully successful with this handicap is about as remarkable as if he had started his business career selling newspapers.

The Parkersburg State Journal of Thursday, March 27, has just reached the Telegram's exchange table. In it, Uncle Presley Morris, (its editor was taking floods as well as other things philosophically. He said that the Associated Press wire went down that day but there was enough local flood news to answer all purposes.

Indulgence in personalities in city campaigns has never brought profit or benefit to the mouthpiece of the opposing party to the city government, nor has it ever succeeded in winning victories for that party. It is wondered at that those who thus abuse men and even their neighbors, oftentimes their benefactors, never wake up. They ought to learn as they read. Perhaps they are too foolish to grasp the fact that their method of campaign never got them anything.

Movement is Just.

One particular feature of the city campaign is the movement on the part of the Republican party to give the west side of Elk creek in the Second ward representation in the city council. This is certainly fair but was not observed by the opposition in selecting its candidate.

John W. Barnes is the nominee on this side of the creek. He is a prominent hardware merchant and an honorable and intelligent business citizen who will look after the interest of his ward in particular and those of the city in general in a careful, zealous, business-like way.

East side residents of the Second ward have long had both councilmen in that ward and they recognize the justice of the new movement. The westside residents without regard of political party should be and doubtless will be united in their support of Mr. Barnes, however highly they esteem the venerable nominee

on the opposition ticket. It is out right that they should be and it is but fair and right that the eastside should grant the westside the right to have a councilman.

Funds Urgently Needed.
Food, clothing and bedding are the main needs of the flood sufferers. These can be sent there provided there is money on hand with which to purchase them.

A large amount of money is needed to meet the woe, want and misery caused by the flood. No one can fully realize the terrible sufferings except those who are sufferers and there is need for more than mere sympathy. Actual cash and plenty of it should accompany sympathy.

Clarksburg has done well so far in responding to the appeals for aid but there are many residents here who will doubtless join the movement to give relief as soon as they fully realize the urgent need of funds. Do not wait to be asked for money but hand your contributions at once to the members of the local relief committee or leave them at the banks.

The committee consists of Dr. W. P. Goff, Frank B. Haymaker, A. M. T. Cunningham, George M. West, Charles S. Smiley, chairman, W. B. Osborn, C. E. Prunty and Clyde M. Crist. Hand any one of these what you have to give and do it at once.

An Advertising Asset.

It is the custom for resorts with a favorable climate to advertise this as an inducement to tourists and invalids. In the past reference has often been made to simply "pure air," "hot air" or just ordinary "blowing." Now that the value of climatic conditions with reference to health can be more correctly estimated, mere statements as to natural advantages in the way of spring, air, sunshine, etc., do not carry such weight. Something more definite must be presented. Health conditions in city or resort, to be regarded as an asset for drawing visitors or permanent residents, must be based on actual figures, and many places now vie with each other in that respect.

The Manito Springs Hot Iron Club, a commercial organization, in order to attract visitors and residents, circulates a letter calling attention to the vital statistics and morbidity record of that city, as compiled by the city physician. This is commented on by the Journal of the American Medical Association which adds: "The health of its inhabitants is the best business asset which any place can have and it is good business and good advertising for business men's associations to call attention to the actual figures with reference to their city in this manner."

RECIPROCITY

In Matter of Tariff Changes is Urged by Governor Foss.

(BY ASSOCIATED PRESS)
BOSTON, April 3.—Governor Foss thinks Massachusetts interests are threatened by what he believes is the Democratic plan of tariff revision. Today in a long special message he urged the legislature to memorialize Congress in favor of reciprocity as the basis of tariff changes. He said in part:

"You know that Democratic victory in the last election was a declaration for protective downward revision through the application of the policy of reciprocity, the Massachusetts plan of constructive tariff reduction; but you also know that precisely the reverse of this is likely to be put into effect by the Democratic Congress."

CLEANING UP

City of Dayton and Engineers May Survey the Miami River.

(BY ASSOCIATED PRESS)
WASHINGTON, D. C., April 3.—Major Rhodes, directing sanitary work in Dayton, O., today reported the work of cleaning up progressing satisfactorily. John H. Patterson, chairman of the Dayton relief committee, has urged President Wilson to send engineers to survey the Miami river with a view to providing against a repetition of the flood disaster.

TO RAISE LEVEE.

(BY ASSOCIATED PRESS)
NEW ORLEANS, La., April 3.—The entire Mississippi river levee from Vicksburg south is to be made two feet higher than the record of last year's flood. The work is to be completed if possible before the flood crest of the Ohio river flood reaches the lower Mississippi valley.

IN HOSPITAL

At Irwin, Pa., is William C. Guffey Suffering from Nervous Breakdown.

William C. Guffey, of the bookkeeping department of the Philadelphia Company of West Virginia's offices here, who went with his wife two weeks ago to Atlantic City for the benefit of his health, has gone from there to his former home at Irwin, Pa., where he is now in a hospital. He is suffering from a nervous breakdown. Mrs. Guffey is with him there. His many local friends hope he will have a speedy recovery.

BISHOP COMING.

Bishop George W. Peterkin, of Parkersburg, will be a week guest of Mr. and Mrs. Lynn S. Hornor, arriving Saturday evening and he will administer the rite of holy communion in Christ Episcopal church Sunday morning at the 11 o'clock service.

Health a Factor in Success.

The largest factor contributing to a man's success is undoubtedly health. It has been observed that a man is seldom sick when his bowels are regular—he is never well when they are constipated. For constipation you will find nothing quite so good as Chamberlain's Tablets. They not only move the bowels but improve the appetite and strengthen the digestion. They are sold by all dealers.—Advertisement.

Men Welcome Mother's Friend

A Duty that Every Man Ows to Those who Perpetuate the Race.

It is just as important that men should know of progressive methods in advance of motherhood. The suffering, pain and distress incident to child-bearing can be easily avoided by having at hand a bottle of Mother's Friend. This is a wonderful, penetrating, external application that relieves all tension upon the muscles and enables them to expand without the painful strain upon the ligaments. Thus there is no need of those nervous spells; the tendency to nausea or vomiting is counteracted, and a bright, sunny disposition is preserved that reflects wonderfully upon the character and temperament of the little one soon to open its eyes in bewilderment at the joy of his arrival. You can obtain a bottle of "Mother's Friend" at any drug store at \$1.00, and it will be the best for your wife's health, enables her to make a quick and complete recovery, and thus with renewed strength she will eagerly devote herself to the care and attention which mean so much to the welfare of the child. Write to the Bradfield Regulator Co., 129 Lamar Bldg., Atlanta, Ga., for their valuable and instructive book of guidance for expectant mothers. Get a bottle of Mother's Friend to-day.

To the Manufacturer's best friend

You are the manufacturer's best friend, Mr. Retailer. He will take advice from you, because he knows that if he wants the people of this city to buy his product he must reach them through you. Therefore, when the manufacturer comes along with a line of goods for you to handle ask him what he expects to do to help you sell them.

Tell him and prove to him that the only way to bring customers to your store to ask for his product is to create a DIRECT DEMAND through the columns of THE TELEGRAM and other good newspapers. Show him that the only kind of advertising that will benefit YOU—and when he helps you he helps himself—is the kind that creates direct demand on you and that the cheapest, best, and quickest medium for this purpose is the daily newspaper.
